

# LOAD SEARCH GUIDE

Thanks to our partnership with TruckStop, we've added a feature, Load Search. We've joined forces and integrated their load board into our app and from now on you will be able to search loads directly from the ELD Rider platform. On Load Board you will be able to filter by the following criteria: Start Date, Origin, Destination or Travel Distance, Trailer or Load Type.

Load Board consists of more information about posted Loads such as:

- Date/Time
- Origin/Destination
- Deadhead from Origin
- Deadhead from Destination
- Equipment Type
- Rate
- Rate per Mile
- Name of Broker

Information about Equipment type, Load type, Length, Weight, Broker Name, Broker Phone, and Load Reference is also displayed in the dialogue after clicking on the selected Load.

Our users will be able to contact the Broker for the selected Load and get more information.

## Setup Process

TruckStop must approve access to the Load Search features following these steps:

1. Log in to **ELD Rider**
2. Go to **Load Search**
3. Click on **Request to Join**
4. Enter the **Truck Stop Account Number**

This page is available only to the TruckStop users

[Request to Join](#)

5. After **confirmation from TruckStop** you will have access to Load Search when you log in for the first time.

The screenshot displays the Truckstop Load Search interface. On the left, there are filters for Start Date, Origin, Destination, OR, Travel Distance, and Equipment. The main area shows a table of 274 total results with columns for DATE/TIME, ORIGIN/DESTINATION, DI-HIGH-D, EQUIPMENT TYPE, RATE, RATE PER MILE, BROKER, and SOURCE. A modal window is open over one of the results, showing details for a \$220 load at \$34.00/mi, 260mi away, scheduled for Wed 6/22. The modal includes a 'CONTACT BROKER' button and details for the origin (750 South Potomac Street, Aurora, CO 80012) and destination (585 25 1/2 Rd, Grand Junction, CO 81505). It also lists equipment type (Dry Van), load type (Packages), length (12'), and weight (39,465 LBS). Source and broker information (Truckstop, Albert Flores, 004458447) and a load reference are also provided.
